Digital Menu Creation Made Easy!

Easy to Use!

DigiMenu-Pro 2 is plug-and-play solution that's ready to use right out of the box!

Easy to Design!

Choose from dozens of pre-made templates or design your own menu with custom prices, text, pictures, video, and more!

Easy to Upload!

Set your menus to display automatically on customized schedules. Send your menus to DigiMenu-Pro 2 players via internet or USB!

Easy to Adjust!

Adjust the content on your menus at any time: fix prices, pictures, text, and more in a matter of minutes! It's fast, effective, and convenient!

Create Amazing Digital Menu Boards
In Minutes with the DigiMenu-Pro 2!

DigiMenu-Pro 2 is specifically designed for creating customizable digital menus in restaurants, bars, delis, food trucks, and eateries of all kinds!

Better yet, each player comes with SmartAVI's fun and easy to use SaviMenu Manager software, which let's you bring your ideal digital menu to life in mere minutes!

SaviMenu Manager

- SaviMenu Manager is software that makes designing, distributing, and managing your digital menus simple!

- Choose from a great selection of pre-made templates, or craft your own!

- Change prices, text, pictures, and video with the press of a button!

- Schedule different menus to appear whenever you need them most-- with SaviMenu Manager, everything you need is just a click away!

Control Digital Menu Boards Over the Internet!

SaviMenu Manager software makes it easy to display and adjust your new menus from anywhere in the world using the internet!

Connect to DigiMenu-Pro 2 signage players via IP address or direct connection, and schedule menus to play from them whenever you want: it's simple, effective, and convenient!

Send Menus Directly to Players via USB!

DigiMenu-Pro 2 is also compatible with USB thumb drives. Simply upload your digital menus from SaviMenu Manager to a USB thumb drive, eject it, and plug it into your DigiMenu-Pro 2 player.

Watch as your ideal digital menu comes to life automatically, following the customized schedules you have set in SaviMenu Manager. Using USB connections is great for small businesses and establishments with a limited number of displays.

A Great Addition to Any Establishment!

DigiMenu-Pro 2 is compact and plug-and-play: easy to set up and even easier to use! It's the perfect fit for food and drink establishments of all kinds, including:

RESTAURANTS
Immediately draw attention to your best offerings with HD digital menu boards. Add video and pictures to spice things up!

CAFES
Perk up your patrons with engaging menu boards that highlight specials and signature offerings in stunning HD quality!
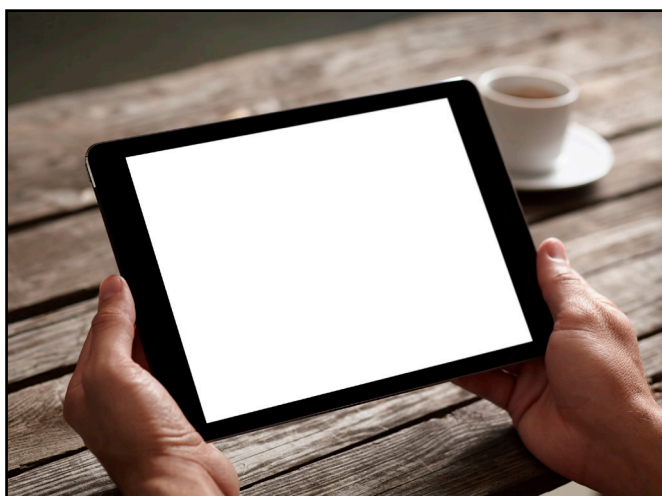

FAST FOOD
Create bold menus perfect for catching the attention of customers who need to eat on a tight schedule!

BARS & NIGHTCLUBS
Showcase happy hour and limited-time specials with vibrant menus perfect for engaging with a thirsty crowd!
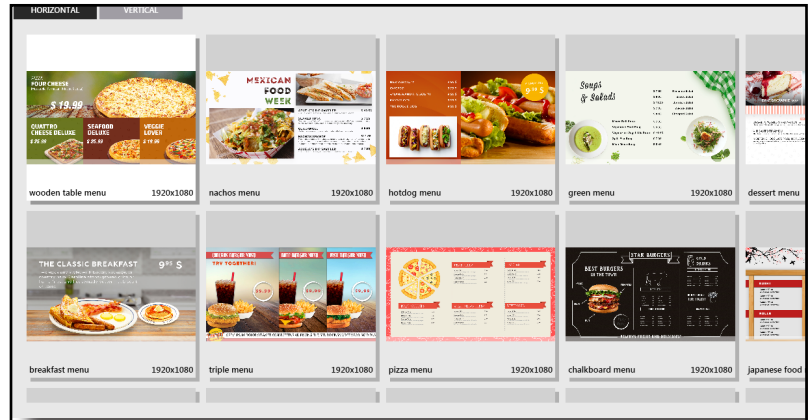

FOOD TRUCKS
DigiMenu-Pro 2 is an excellent fit in compact, mobile environments. Even better, SaviMenu Manager makes it easy to send out new menus to trucks in-transit via the internet!

# Create Your Own Ideal Digital Menus with SaviMenu Manager Software

Template Manager

- Choose from a variety of pre-loaded templates, or create your very own!

- Choose a still image background.

- Add enticing content like images and video for your hungry customers!

- Add custom pricing that can be changed at any time!

- Add content drop-zones for advertising space and visual flair!
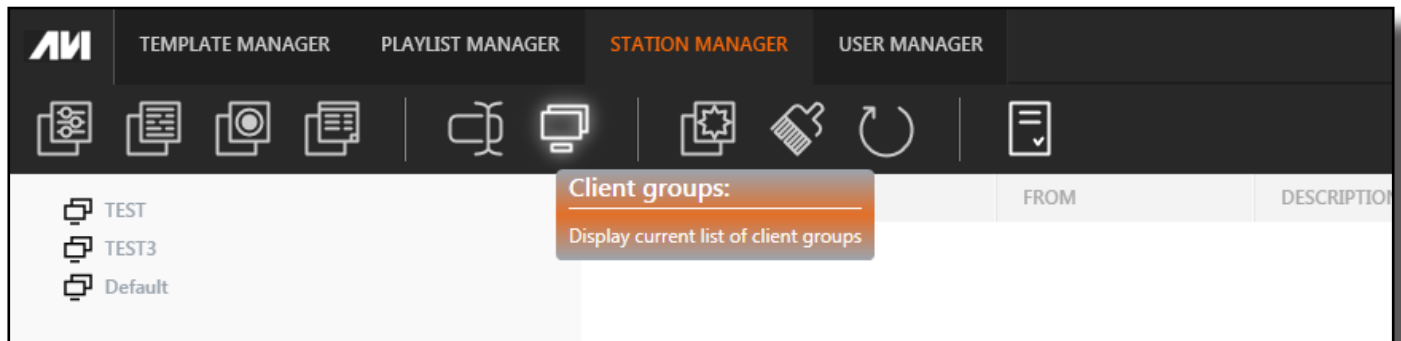

Playlist Manager

- Edit prices, text, images, video, and more!

- Schedule your menu boards to appear when and how you need them most!

- Set specific schedules for different types of menus, such as lunch and dinner.

- Set up looping, dynamic menu displays that showcase everything your business has to offer!

- Make on-the-fly changes to menu boards, and distribute them remotely via the internet!

# Optimize Your Ideal Digital Signage Environment

Station Manager
